
Title: ENCHANTING ITEMS FOR HOUSEHOLD USE

Author: Nicodemus

Found upon the pages of
this tome are many a
recipe for the creation
of "mundane" magic
utensils and apparatuses,
including such items as
the SELF-PROPELLED
BROOM, the GHOST
WRITING QUILL, and the
ALARM GEM. Toward the
unfinished end of the
book, the entries become
erratic and almost
unreadable, as if written
down in a hurry. Many of
the latter items seem a
little demented: the
GIANT OBSIDIAN
FLYSWATTER, the
EXPLODING CORNCOB
HOLDER, and the COMB
OF MANY BLADES. It
would seem that this
mage was not conjuring
with all of his reagents.
